Joint Yonsei-Kankuk-Sogang Mini-workshop on FOPT

A Student - Feb. 6, 2025

Participant List

No	Name	Affiliation	Signature	2/6	2/7	2/8	2/10	2/11
1	Yoo Park	Yonsei University	<i>[Signature]</i>					
2	Ullana Walker-Saells	Sogang University	<i>[Signature]</i>					
3	Jiyeon Kim	Yonsei University	<i>[Signature]</i>					
4	Seung Cheon Park	Yonsei University						
5	Eungho Yumartchuk	Yonsei National University						
6	Jonghee Kim	Kankuk University	<i>[Signature]</i>	✓				
7	Jonghyun Song	Kankuk University						
8	Jinhyung Kim	KIAS						
9	Subhaji Roy	Argonne National Laboratory						
10	Saehun Lee	Kankuk University	<i>[Signature]</i>					
11	Philipp Schiele	University of Geneva						
12	Jorinde van de Ven	CEBS						
13	Pyeongwon Ko	KIAS						
14	ELUNG AN CHUN	KIAS						

- Pick up your **badge** outside and **return** it before you leave
- Please **sign** on **every** day on **every** sheet behind your name

Joint Yonsei-Kankuk-Sogang Mini-workshop on FOPT

A Student - Feb. 6, 2025

Participant List

No	Name	Affiliation	Signature	2/6	2/7	2/8	2/10	2/11
1	Yoo Park	Yonsei University	<i>[Signature]</i>					
2	Ulliana Valdes-Benalls	Sogang University	<i>[Signature]</i>					
3	Jiyeon Park	Yonsei University	<i>[Signature]</i>					
4	Seung Cheol Park	Yonsei University						
5	Eungho Yumartachan	Yon-National University						
6	Jonghee Kim	Kankuk University	<i>[Signature]</i>	✓				
7	Jeehyun Song	Kankuk University						
8	Jehyoung Kim	KIAS						
9	Subhaji Roy	Argonne National Laboratory						
10	Saehun Lee	Kankuk University	<i>[Signature]</i>					
11	Philipp Schiele	University of Geneva						
12	Jorinde van de Ven	CEBS						
13	Pyungwon Ko	KIAS						
14	ELUNG AN CHUN	KIAS						

- Pick up your **badge** outside and **return** it before you leave
- Please **sign** on **every** day on **every** sheet behind your name
- Most signatures win a **coffee**

Software Installation

- Please remember to **install** WallGo, DRalgo, and FindBounce **before the afternoon session!**
- Follow the **installation guide** on the workshop website

Installation Guide

Installing WallGo and DRalgo and Their Dependencies

During the workshop, it is essential to have **WallGo** and **DRalgo** pre-installed. Below, you will find a comprehensive guide on where to locate and how to set up these tools on your system.

Overview

What and where is WallGo? [\[GitHub Repository\]](#)

WallGo is an open-source code designed for calculating the bubble wall velocity and width during first-order cosmological phase transitions. For more details, refer to the associated scientific article [arXiv:2411.04970](https://arxiv.org/abs/2411.04970) and the online documentation (<https://wallgo.readthedocs.io/en/latest/>).

Lunch Options

- **Yonsei Students' Union** (ground floor: Korean, 1st floor: Western)
- **Hangyeong Hall** (ground floor: Korean set lunch, 1st floor: buffet)
- **The Commons**
- Various restaurants outside the **West gate**
- More restaurants **outside the main entrance**

Coffee

- **Bluepot** downstairs
- 2 coffee shops in **Students' Union**
- World's most depressive **Starbucks** in **The Commons**
- **Mahogany** in **The Commons** and **Engineering Hall 1**
- **Tresbien Premium** in **Gwangbok Hall**
- **Yeonhui Espresso** in **Yeonhui Coffee Street**

Workshop Dinner

- Friday, 6:30 pm
- Details t.b.a.
- Please email **Yeji Park** if you have not yet done so
